Late-night food quarter

This report aims to describe the ~~present~~ current situation with a new food quarter in our town, highlight some problems appeared during that urban renewal and give some recommendations that would contribute to the satisfying residents' needs.

Pros and cons

Recent creation of a new food quarter turned out to be quite controversial. According to the latest survey, a part of the citizens is doesn't want to see ~~some~~ anything like this in the city. A town council meeting held recently was intended to make an overview ~~and~~ ~~se~~ of the affects the latest renovation has on the city. In general, the creation of such a food-quarter has been for the better: it provided many opportunities for the people to work there and ~~to~~ became a favourite recreational ~~space~~ space for the citizens and tourists. On the other hand, it increased the traffic around this quarter. However, I have some ideas to control it.

Recommendations

I can suggest building additional bypass roads for the drivers ~~of~~ who want to visit the food quarter. Also, the air pollution decreasing programm should be design.

I can also recommend ~~arranging~~ ~~sparranging~~

the quarter for all people. Some special
improvements should be made for disabled citizens.

Conclusion

On the hope, we can see that the
authorities are trying to develop our city's
appearance. I hope that my recommendations
will help to improve the food quarter
and all the residents will be satisfied
